Adding PDFs to Your Smartphone or Tablet for Quick and Easy Offline Access

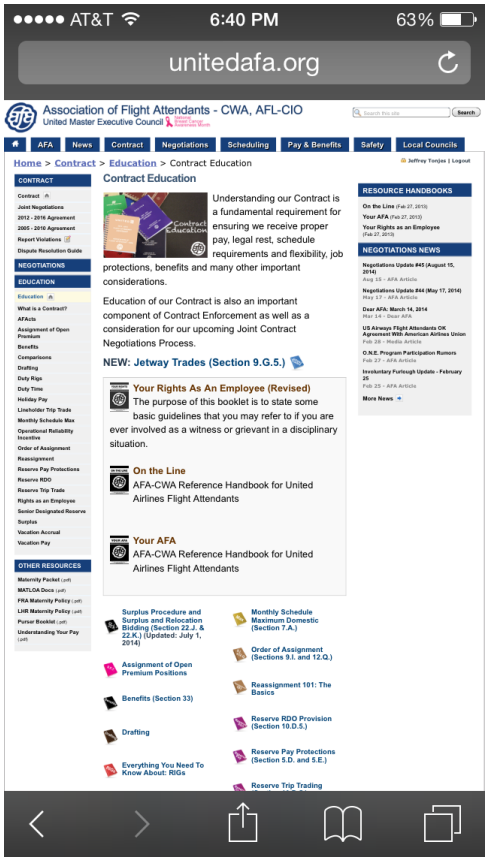
iPhone

1. Visit www.unitedafa.org on your iPhone device browser.

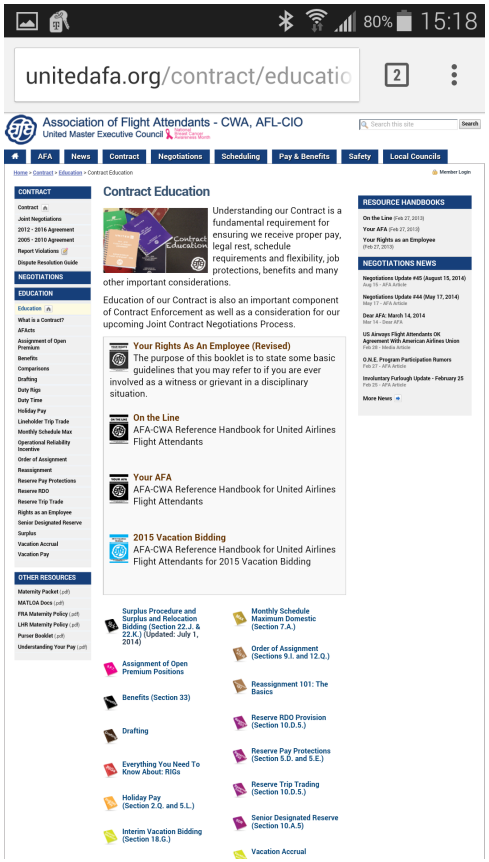
Android

1. Visit www.unitedafa.org on your Android device browser.

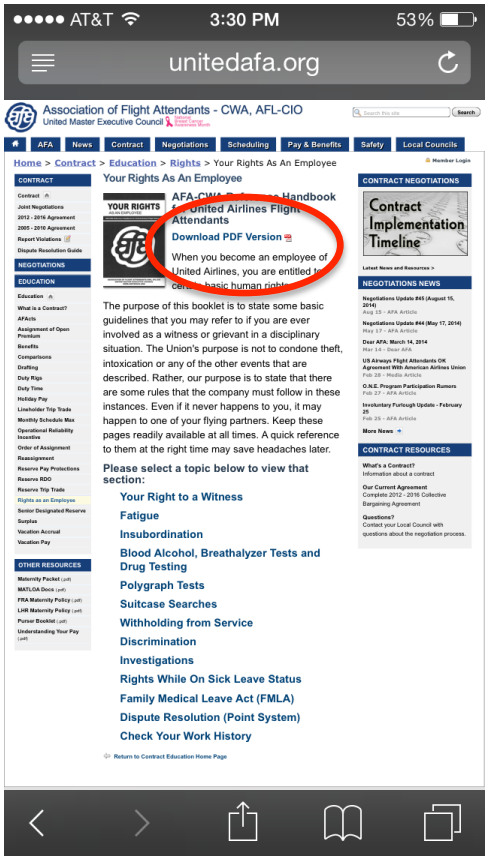
2. Navigate to where the PDF is located on the website. Many useful PDFs are located on our Contract Education page (www.unitedafa.org/contract/education).



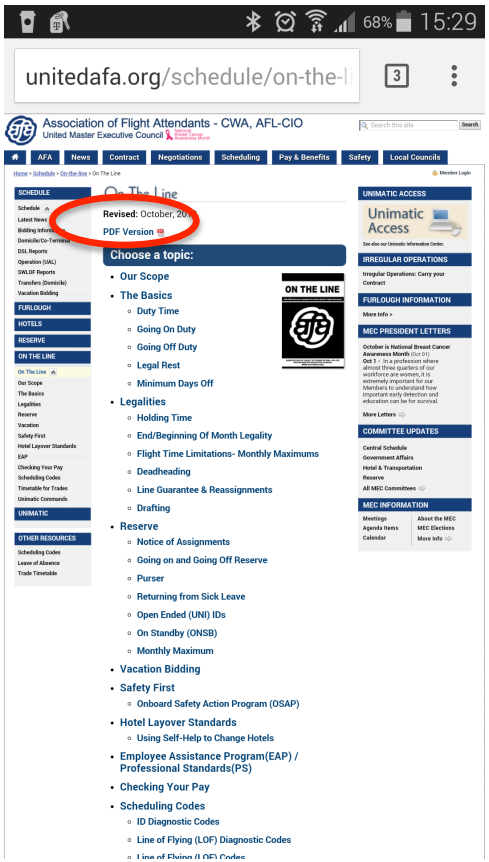
2. Navigate to where the PDF is located on the website. Many Useful PDFs are located on the Contract Education page (www.unitedafa.org/contract/education).



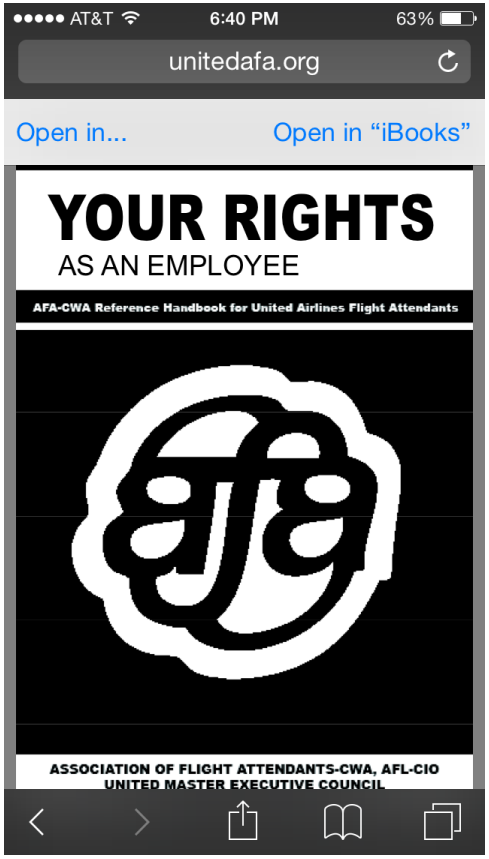
3. Select the PDF link.



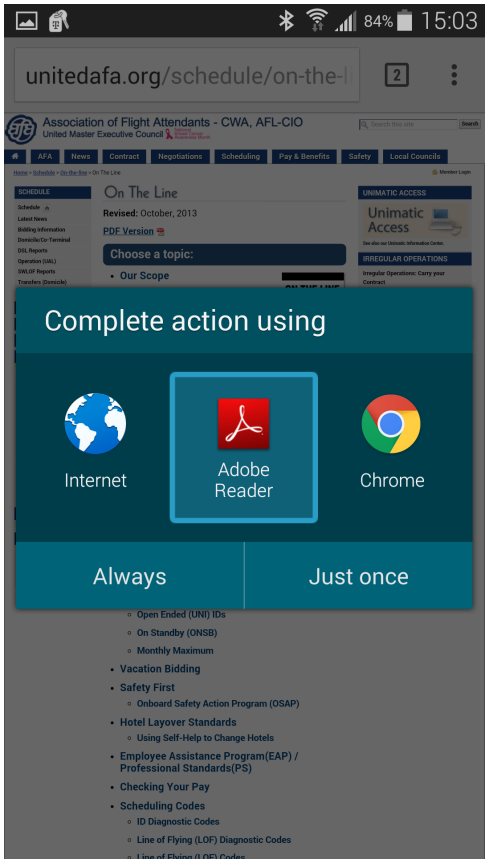
3. Select the PDF link.



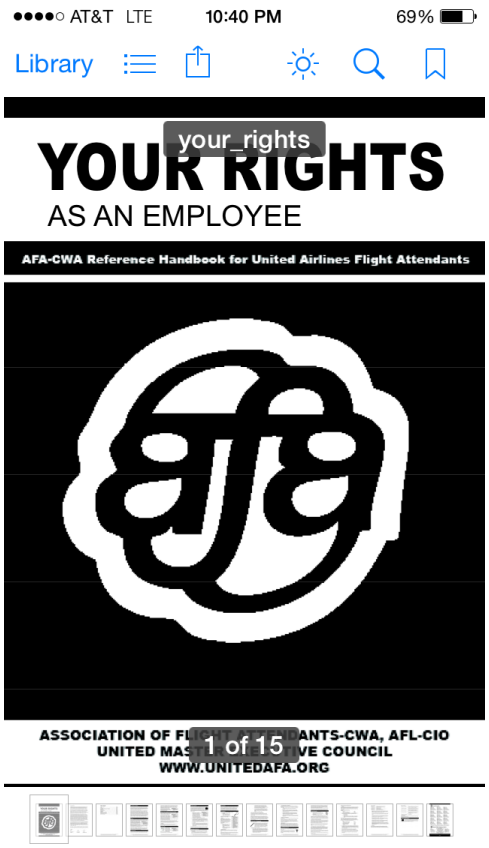
4. Once the PDF opens on your Apple device (iPhone, iPad, iPod touch), tap Open up in “iBooks”



4. The Complete action screen will display, select the Adobe Reader application, and then select Just once.

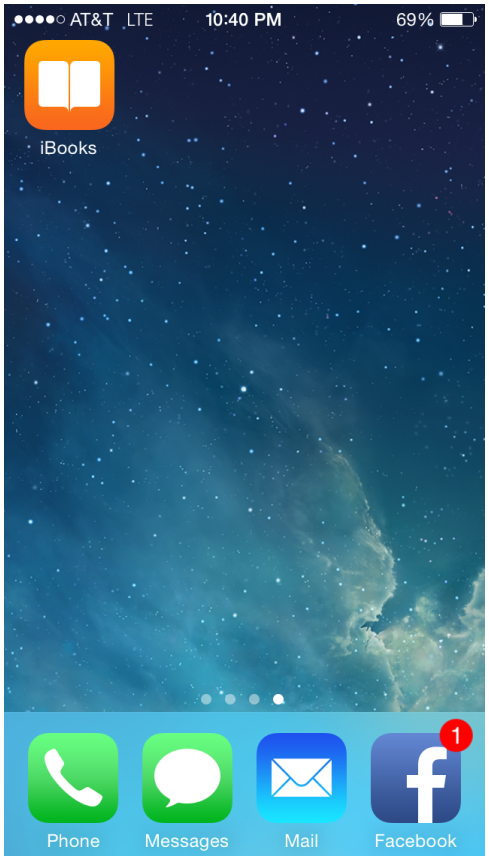


5. Once the PDF opens in iBook, the file will automatically be saved in your library.

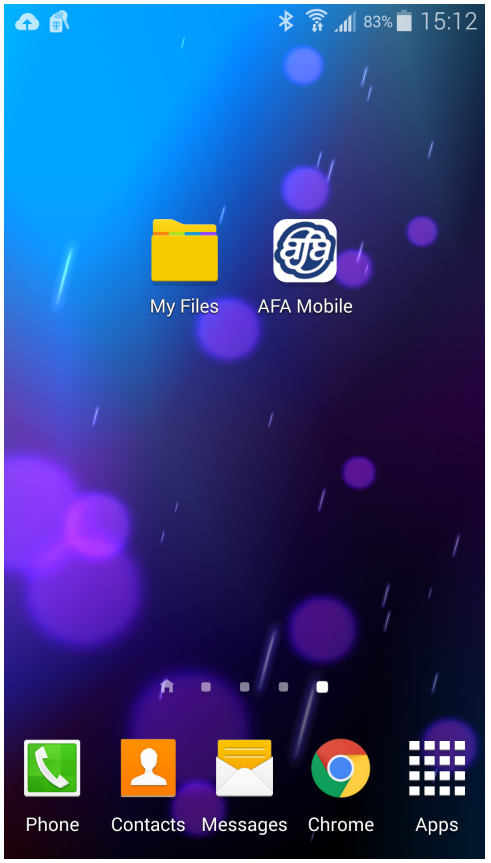


5. Once the PDF opens on your Android device (Samsung Galaxy, HTC, LG, Motorola), the file will automatically be saved in your documents folder on your device.

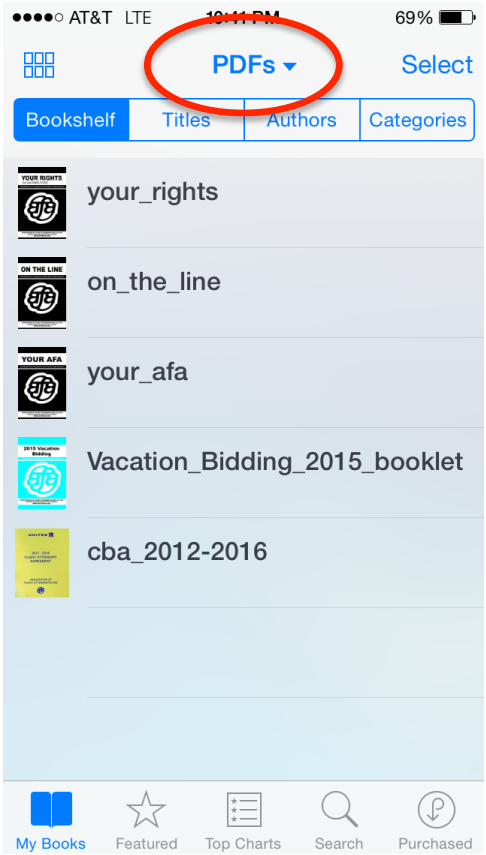
6. To open a PDF later, open the iBooks App.



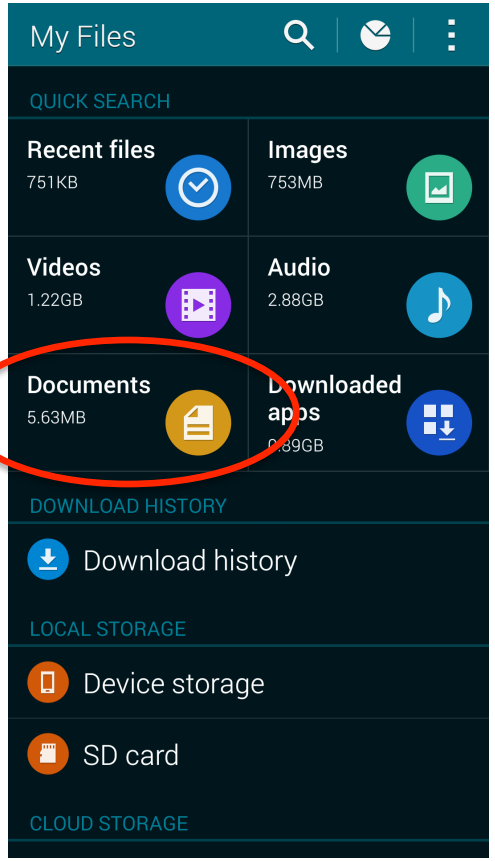
6. To open a file/PDF later, open the My Files App.

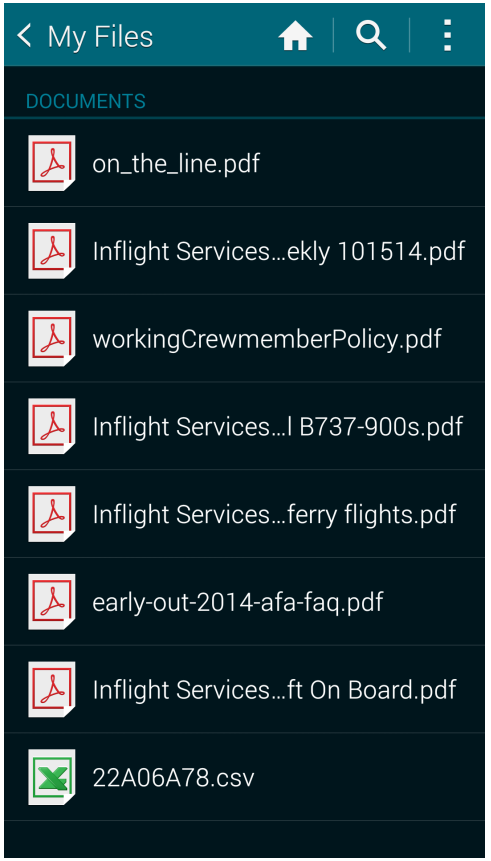


7. Once the iBooks application is open, tap center dropdown to select PDFs. Options may be different depending on your last selected option (i.e. Books, PDFs or All Books). Select the PDF you would like to open. In this case it is the your_rights.



7. Select Documents.





8. Select the file you would like to open. In this case it's the on_the_line.pdf file.
